Crete Rx SI Burnishing Pad

Sealant Infused (SI) Burnishing Pads take polished concrete maintenance to the next level and are a part of the Crete Rx Honing and Polishing prescription pathway. SI pads continually fill porous concrete with sealant, pushing the sealant into the concrete itself, not a topical film. This provides excellent protection and deep gloss without floor finish. Now with an even better burnishing response. SI Burnishing Pads significantly pop gloss while strengthening the surface.

Features

- Infuses concrete or terrazzo floor with sealant to fill pores
- Improves gloss and protection
- Circumvents the need for a topical film
