DM120 Mop Treatment

Dust mop treatment

Designed to eliminate oily residue, DM120 is compatible with all floor finishes and gym floor seals. The first line of defense in any maintenance program, good dust mopping procedures will greatly reduce wear and prolong floor appearance by removing dry soils. This unique formula attracts dust and dirt like a magnet and will restore floor sheen without streaking.

Features

Attracts dust and dirt
Brightens surfaces and restores sheen
Economical
Versatile formula, for use on mops and cloths
Penetrates mop fibers

Available In

4 - 1 Gal. Bottles Item #12004-00

55 Gal. Drum Item #12055-00

Directions for Use

Pour or spray treatment directly on mops or cloths, us enough solution to moisten thoroughly. Dry treated areas at least six hours before use. Dirt and soil can be easily removed from treated areas with vigorous shake. When too soiled for further use, launder and retreat as above. * May be harmful to some plastics, gaskets, squeegees and painted surfaces.
