

Crete Rx™ Honing Tool (3/case)

This honing tool is designed for use with propane equipment and auto scrubbers. It is a precursor to the polishing step in the Betco Crete Rx Honing and Polishing prescription pathway. This tool lasts approximately 4,000 square feet. It attaches to the machine via Velcro or magnetic tool holders and should be used in conjunction with LiquiGrind to hone concrete and terrazzo surfaces.

Features

Use with LiquiGrind to grind out imperfections in previously polished concrete
Prepares concrete for polishing step by removing imperfections and smoothing surface

Available In

Crete Rx™ Honing Tool (3/case) Item #E84133-00

Directions for Use

Attach the Betco Crete Rx Honing Tool to proper equipment to be used either via Velcro or magnetic Tool Holders. Place equipment in LiquiGrind and begin initial grinding procedure. If using propane equipment, allow one pass at roughly 15 to 20 ft./minute. Overlap each pass by at least one quarter to ensure proper restoration pass. If using autoscrubber application, allow for eight to ten passes at the same rate. Be sure to keep concrete wet in this step.

Tech Specs

Hone Autoscrubber	50000 sq.ft.
Hone CP30	5000 sq.ft.
Weight	130 grams
Color	Light Brown
