

LiquiShield Concrete Guard

Concrete Guard

LiquiShield, a cutting-edge, water-based protective guard designed to enhance gloss and provide robust defense against stains and etching within the Crete Rx™ Cleaning and Coating system. With its low odor and easy application, LiquiShield requires just 2-3 coats, covering 2,000-3,000 sq.ft. per gallon. This innovative solution eliminates the need for traditional floor finishes and coatings by effectively resisting scuffs, black marks, and soil. Unlike conventional coatings, LiquiShield won't peel, flake, or discolor, and its breathable formula makes it the perfect choice for concrete, terrazzo, and other porous stone surfaces.

Features

- Easy Application
- Low odor
- Superior resistance
- Durable & reliable

Available In

4 - 1 Gal. Bottles Item #167904-00

Directions for Use

Recommended for concrete and terrazzo surfaces for extended stain and etch protection. Clean entire area with Betco floor cleaner, allow floor to dry prior to application. Apply Betco LiquiShield at proper application rate, 2,000 to 3,000 sq. ft. per gal, with a microfiber applicator pad or mop and bucket application. Allow to dry to touch, plus 15 minutes, then burnish the floor with a Hair Lite pad, then apply second and third coat using the same procedures. Allow final coat to dry then high speed burnish with Hair Lite Pad. Allow 1 to 2 hours cure time before floor is exposed to full traffic. Allow 24 hours before the use of cleaners on the floor.

Tech Specs

Color	Opaque White
Density	1.025-1.05
pH	7.0-9.0
Flash Point	>100C/212F
Warranty	1 year
