

Urinal Puck Blue DSL

Urinal Pucks

Urinal Puck Blue DSL is comprised of bacterial cultures capable of degrading uric acid which is the leading cause of scaling and odors in urinals. Because these urinal pucks degrade odors naturally, Urinal Puck Blue DSL is cost efficient saving money by reducing the frequency of urinal flushing. Urinal Puck Blue DSL has the added benefit of dispensing bacteria and water softening agents into the drains with each use and flush.

Features

- Preventative maintenance tool - controls scale build-up
- Works in all types of urinals or troughs
- Cleans and freshens
- Prevents blockages in traps and pipes

Available In

Urinal Puck Blue DSL (50 – 1 7/8" x 50 g pucks) Item #Z603RP1-00

Directions for Use

Place in urinals. Replace after puck is depleted.
