

Rapid Release FOG Block

Controlled Release Grease Treatment for Drains, Grease Traps, and Lift Stations

Rapid Release FOG Block is a bacterial laden block designed to provide continuous biological treatment over a 30 – 45 day period.

Rapid Release FOG Block dissolves gradually releasing billions of beneficial bacteria into the grease trap to digest FOG and maintain clean, free flowing systems. Formulated with surfactants and binders, Rapid Release FOG Block is ideal for institutional and foodservice applications.

Features

Simple, easy to use – Extended release block for continuous treatment eliminates the cost of daily or weekly treatments
 Saves money by reducing the frequency of manual cleanouts, preventing blockages, and lowering grease disposal costs
 Reduces malodors associated with organic waste and sludge

Available In

12- 2 lb. Blocks Item #GTS306C16

2- 10 lb. Blocks Item #GTS306C11

4- 2 lb. Blocks Item #GTS306C8

4- 5 lb. Blocks Item #GTS306C81

Directions for Use

Suspend Slow Release FOG Block with rope into area to be treated. Replace as needed with new product.

Dosing rates are dependent on temperature, pH, and content of the wastewater. Please contact your EnviroZyme representative for application-specific dosing recommendations and a referral to a distributor.

Tech Specs

Bacteria Count	5 Billion CFU per gram
Bacterial Type	Non-pathogenic microbes
DSL	Yes
Color	Orange
Fragrance	Characteristic
Gram Negatives	Not present
pH	6 - 9.5
Temperature Range	20 - 40 Celsius
Warranty	2 Year
Storage Temperature	10 - 30 Celsius
Storage Humidity	30 - 60%
