

# Rapid Release FOG Block

## Controlled release grease treatment for drains, grease traps, and lift stations

Rapid Release FOG Block is a bacterial laden block designed to provide continuous biological treatment over a 30 – 45 day period. Simple and easy to use, Rapid Release FOG Block dissolves gradually releasing billions of beneficial bacteria into the grease trap to digest FOG and maintain clean, free flowing systems. Formulated with surfactants and binders, Rapid Release FOG Block is ideal for institutional and foodservice applications.

Applications: Pits, Grease traps, Lift Stations, Sumps, Drains, Holding tanks, Reclamation systems, Interceptors, Sewers

### Features

Simple, easy to use – Extended release block for continuous treatment eliminates the cost of daily or weekly treatments  
 Saves money by reducing the frequency of manual cleanouts, preventing blockages, and lowering grease disposal costs  
 Reduces malodors associated with organic waste and sludge
