

# Refinery and Recalcitrant Organics

## Premium Hard COD Reduction - DSL

Refinery and Recalcitrant Organics is a highly effective blend of bacteria and nutrients designed specifically for difficult-to-treat wastewater streams from petrochemical refinery operations and other industrial processes that produce difficult-to-degrade (recalcitrant) organics.

Refinery & Recalcitrant Organics aides in the breakdown and management of BOD/COD and other organics in both day-to-day maintenance and for system-upset recovery.

## Features

Water-soluble packaging for simple dosing and application  
 Highly effective formula with bacteria targeted for breaking down petrochemical hydrocarbons, including aromatics, phenols, and other recalcitrant organics  
 Use for daily maintenance or to regain control in upset situations

## Available In

**25 - 1 lb. Pouches Item #WTP9341RP5**

## Directions for Use

Dosing rates are dependent on temperature, pH, and content of the wastewater. Please contact your EnviroZyme representative for application-specific dosing recommendations and a referral to a distributor.

## Tech Specs

Bacteria Count	8 Billion CFU per gram
Bacterial Type	Non-Pathogenic Microbes
DSL	Yes
Color	Brown
Fragrance	None
Gram Negatives	Not Present
pH	6.0 - 9.0
Temperature Range	20 - 40 Celsius
Warranty	2 Year
Storage Temperature	10 – 20 Celsius
Storage Humidity	30 – 50%
