

FastDraw® PRO Air Gap

4-Product Locking Chemical Management System

NEW! Smaller Size and More Reliable Product Selector

Durable, reliable and simple-to-use 4-product locking chemical management dispenser. The durable looking exterior is matched by a robust 3-point door lock for extra protection. New 1-door design provides complete access to internal parts. Fill bottles and buckets from all bays. Can be mounted on a flat wall or save space by mounting in the corner. 2 independent flow rates (1 and 4 GPM) ensure you always get the right dilution and makes it extremely simple to fill bottles and save time filling mop buckets and automatic scrubbers.

Features

- Durable construction can be used in toughest settings
- 2 independent flow rates (1 GPM for bottles and 4 GPM for buckets/scrubbers)
- Flexible mounting options – Mounts on either a flat wall or space-saving corner mount
- Bottle or bucket fill from each bay
- 3-point locking door to prevent tampering or theft and won't break!
