

Grease Trap and Drain Treatment Blocks

Grease Trap and Drain Treatment Blocks

Simple and easy to use, Grease Trap and Drain Treatment Blocks dissolve to release beneficial bacteria into the drain or grease trap, where they digest FOG and help maintain clean, free-flowing systems. The formula also contains targeted surfactants that loosen food particles and grease deposits, allowing the bacteria to quickly begin breaking down organic waste.

Grease Trap and Drain Treatment Blocks is a bacteria block, specifically formulated and packaged for use in restaurant drains and grease traps.

Features

- Breaks down grease and organic soils in drains and traps
- Reduces malodors associated with organic waste and sludge
- Extended release block for continuous treatment
- Helps prevent emergency pump-outs and blockages
- Helps maintain free-flowing drain lines
- Used in grease traps, interceptors, and drain lines

Available In

Grease Trap and Drain Cleaner Blocks -64 pucks in 8 ind. Boxes (2 1/2" x 8 oz.) Item #Z320C14-00

Directions for Use

GREASE TRAPS: Use 6 to 8 Grease Trap and Drain Cleaner blocks per 50 gallons capacity weekly. For high grease volume, increase dosage. This rate may be adjusted according to desired results. For large traps and specific dosing and application information, please contact your Betco representative.

DRAINS: Place puck as close to the sink drain as possible, replace when block is depleted. (See Video)

Tech Specs

Bacteria Count	10 Million CFU per gram
DSL	Yes
Color	Green
Fragrance	None
pH (in solution)	6 - 9.5
Temperature Range	68 F - 105 F
Warranty	2 Years
Storage Temperature	50 F - 85 F
Storage Humidity	30 - 60%
