

Stone, Tile, Grout & Concrete Penetrating Sealer (STG Sealer)

Stone, Tile, Grout & Concrete Penetrating Sealer

STG & Concrete Penetrating Sealer uses innovative chemistry to deeply penetrate and bond with porous stone, tile, concrete, and grout. It delivers long-lasting protection against stains and soils, helping floors stay cleaner and look better for longer. Safe for use on all types of stone, tile, concrete, and grout surfaces.

Features

Semi-permanent protection that resists stain and soil embedment, helping maintain a cleaner surface over time
Top-in-class stain resistance with durability of up to one year in high-traffic applications
Effective on all types of tile, grout, concrete, and natural stone surfaces
Preserves the original beauty of the floor—penetrates without altering appearance, color, or sheen

Available In

4 - 1 Gal. Bottles Item #168604-00

Directions for Use

Recommended for use on brick, ceramic tile, marble, grout, porcelain and quarry tile, slate, terrazzo, sand stone, limestone, concrete, quartz and travertine. All tile and stone must be cemented and grouted following cure times per manufacturer's directions prior to application of this penetrating sealer.

1. Floor must be fully stripped and free of all coatings, finishes, guards, waxes, and sealers.
2. Surface must be clean and completely dry before application.
3. Pour product in a thin line on the floor, then apply with a clean microfiber flat mop..
4. Spread evenly using overlapping passes.
5. Allow product to dwell for 3 - 5 minutes. **DO NOT ALLOW EXCESS PRODUCT TO FULLY DRY!**
6. Remove all excess with a clean, dry microfiber flat mop after product dries.
7. Allow 15 - 30 minutes dry time between coats.
8. Apply a minimum of two coats for optimal protection.
9. Allow final coat to cure before light traffic (light traffic 1-2 hours, mop & autoscrub 24 hours),br>

Tech Specs

Color (dry)	Clear
Color (liquid)	Water White
Coverage	2500 - 3500 square feet/gallon
Drying time	15 - 30 minutes under normal conditions
Durability	Excellent
Fragrance	Mild
Freeze/thaw stability	Protect from freezing
Gloss	None
Leveling	Excellent
pH	8.4 - 8.9
Warranty	1 year
