

Flatware Presoak

Liquid Presoak

This double-duty product is an effective presoak for softening food soils on flatware prior to machine processing. It helps remove egg yolk, cheese, dried catsup and other sticky food residues, ensuring one-wash clean ware. Flatware Presoak is also an effective detarnisher that will not harm sterling silver or other soft metal ware when used as directed.

Features

NSF International Certified for use in all regulated food processing and food service environments.
Liquid Concentrate - Economical, saves money
Reduces Rewash - Spotless one pass washing
Brightens - Cleaner and shines stainless ware
Fast Acting - Labor saving

Available In

4 - 1 Gal. Bottles Item #259904-00

Directions for Use

DIRECTIONS FOR USE: Read the entire label before using this product. Refer to product page at www.betco.com for more information. Flatware: 1. For detarnishing silverware, use 1 or 2 ounces per gallon of warm water. Place silverware in an aluminum container or line a container with aluminum foil. Allow to remain until tarnish is removed. Use on silverware or silver plates. 2. For presoaking stainless flatware follow the same instructions as above but DO NOT use with aluminum. This product should not be used on the following surfaces, Aluminum, copper and its alloys such as brass, tin.
