

Septic Treatment

Septic Waste Degradar & Maintainer

For household and Institutional waste that is disposed of through a septic system. The proper operation of this system is essential to health, property value, and the environment. Septic Treatment helps your septic system by facilitating the breakdown of many organic wastes, keeping your system running smoothly and extending pump out frequency.

Features

- Restores the natural biological process
- Maintains optimum system performance
- Boosts biological activity for improved waste digestion
- Helps to prevent expensive emergencies and additional pumping costs

Available In

200- 2 oz. Pouches Item #STP703RP4

Directions for Use

Simply drop in the convenient water-soluble pouch into your toilet bowl and flush. No need to open pouch prior to application.

Use once per month for light applications. Apply more frequently for heavier use systems.
