

LiquiGrind Honing Compound

Honing Compound

Proprietary nanoparticle abrasives provide maximum surface area coverage for increased cutting effectiveness. Excessive wear and etching is easily removed with LiquiGrind honing compound. This formula penetrates porous concrete while working with the Crete Rx™ honing tool to grind out excessive wear and staining.

Features

- Nanoparticle abrasives
- Removes wear and etching easily
- Works with honing tool to grind out excessive wear and staining

Available In

5 Gal. Pail Item #167005-00

Directions for Use

Sweep and dust mop area free of large debris. Double scrub area with Betco Densiclean to ensure that polished concrete floor is saturated; keep concrete wet for 15-20 minutes; keep solution on floor for next step. Apply LiquiGrind at 1000 sq.ft/gal with a low-pressure sprayer, mop and bucket, or autoscrubber. Begin floor work with Betco Honing Tool on appropriate equipment.
