

Stain Defense

Penetrating Sealer

Crete Rx Stain Defense is a penetrating product that fills porous concrete to help prevent stains and etch. Stain Defense works together with SI Polishing Tools to create a uniform, continuous protected surface without the need for a guard or coating.

Features

- Penetrating polymers seal off open pores
- Resists staining and etching
- Interacts with Sealant Infused Polymers
- Creates uniform, continuous protective surface

Available In

5 Gal. Pail Item #167205-00

Directions for Use

Clean entire area with Betco Crete Rx Densiclean, allow floor to dry prior to application. Apply Betco Stain Defense at proper application rate, 3500 to 4000 sq.ft./gal, with a low-pressure sprayer spread with a microfiber applicator or mop and bucket application. Allow dry to touch for 30-45 minutes, then high speed burnish with Betco Crete Rx SI Burnish Pad. Allow 1-2 hours cure time before floor is exposed to full traffic.
