Fungi: *Candida albicans*, *Trichophyton interdigitale*. 10 MINUTE CONTACT TIME: Bacteria: *Legionella pneumophila*. DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from the room or carefully protected. Preparation of Disinfectant Use-Solution: 1:256

000 ½ oz. per gallon of water. DISINFECTION/VIRUCIDAL/FUNGICIDAL/MOLD AND MILDEW CONTROL DIRECTIONS: Spray use-solution 6-8 inches from hard, nonporous surfaces, thoroughly wetting surfaces. Treated surfaces must remain wet for 3 minutes. Do not breathe spray. For disinfection against HIV-1, Influenza Virus Type A/H3N2 and SARS-CoV-2, treated surfaces must remain visibly wet for 1 minute. Wipe dry with a cloth, sponge or mop or allow to air dry. For visibly soiled areas, a preliminary cleaning is required. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use on utensils, glassware and dishes. Bactericidal Stability of Use-Dilution: Tests confirm that the use solution of this product, when stored in a sealed container such as a spray bottle, remains effective for up to 1 year. If product becomes visibly dirty or contaminated, the use-dilution must be discarded and fresh product prepared. Always use clean, properly labeled containers when diluting this product. For fungicidal activity: Betco Triforce is an effective fungicide against *Trichophyton interdigitale* the athlete's foot fungus 000 when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities. Betco Triforce is a one-step fungicide at 1/2 oz. per gallon in 250 ppm hard water and 5% serum. For mold and mildew: At 1/2 oz. per gallon, Betco Triforce will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears. This product is not to be used as a terminal sterilant / high level disinfectant on any

surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. TO SANITIZE SOFT SURFACES: Add ½ oz. per gallon of water. Apply use-solution with a sprayer. Hold bottle 6" – 8" from surface and spray until fabric is wet. Fabric must remain wet for 5 minutes. Allow fabric to Air dry. Soiled areas must be cleaned prior to sanitizing. For Use on Finished Floors: To limit gloss reduction use this product at ½ oz. per gallon per gallon. Spray onto floor at a distance of 6-8 inches from the floor. Allow surface to remain visibly wet for contact time indicated on the label. Wipe or allow to air dry. *KILLS HIV AND HBV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 HIV-1000 associated with AIDS000 or Hepatitis B Virus HBV000 or Hepatitis C Virus HCV000. Special Instructions for Cleaning and Decontamination against HIV-1 or HBV or HCV on Surfaces / Objects Soiled With Blood / Body Fluids. Personal Protection: Cleanup must always be done wearing protective gloves, gowns, masks and eye protection. Cleaning Procedure: Blood and other body fluids containing HIV-1 or HBV or HCV must be thoroughly cleaned from surfaces and objects before application of Betco Triforce. Contact Time: Leave surface visibly wet for 1 minute 60 seconds000 for HIV-1 and 3 minutes for HBV and HCV with a ½ oz. per gallon use-solution. Use contact time indicated on the label for disinfection against all other viruses, bacteria and fungi claimed. Disposal of Infectious Material: Blood, body fluids, cleaning materials and clothing must be disposed of according to local regulations for infectious waste disposal.
