Automated Water Conserving Urinal Kit

Betco's SmartValve& Auto Combo Pack is a timed based flushing system that allows building owners and managers to have all the cost savings and environmental benefits of water free urinals without the significant up-front cost of tearing-out of existing urinals and the inconvenience caused tenants. A highly engineered deodorizing urinal screen controls odors between flush cycles.

Features

- Programmable Timed Flush System – 2, 4, 6 or 8 hour cycle
- Manual flush override for cleaning professionals
- Two fragrance options: Ocean Breeze or Citrus Bouquet
- Bio-Active Enzymes – cleans and fights odor causing bacteria with use
- Non-Para Block – meets VOC requirements
- 2400 Uses – Long Lasting
