

FastDraw Freedom Hose Kit

FastDraw Freedom Hose Kit

With the FastDraw Freedom Hose Kit, it is even simpler to use the FastDraw Freedom. With a 6' durable water supply hose, male and female quick connects and a shut off valve, you have everything you need!

Features

Instantly use the Fastdraw Freedom
Preassembled - just hook up to the FastDraw Freedom to start using
Shut off valve makes turning on and shutting off product extremely simple

Available In

FastDraw Freedom Hose Kit Item #93059-00

Directions for Use

1. Thread male hose end into water source.
2. Thread opposite end (male quick connect) onto FastDraw Freedom/Product Assembly.
3. While shutoff valve is in the off position, turn on water supply fully.
4. Turn Freedom to the spray bottle or mop bucket position. Turn on shut off valve to dispense product.
5. After using Freedom, turn off shut off valve and always turn off water supply.

NOTICE TO INSTALLER Betco Corporation is not responsible to any distributor or customer for compliance with local plumbing codes and regulations which may require a particular backflow prevention device or a different method of installation. The customer must always verify that installation of the unit meets local plumbing regulations. **NOTE:** Water hook-up options may vary. (Refer to the 'NOTICE TO INSTALLER' above). Not designed for continuous pressure.
