

Bacteria Concentrate 4,000 B 20X HF

Highly formulated concentrate with odor control 20X 4,000 billion cfu per gallon for the use in sumps, drains and traps

Bacteria Concentrate 4,000 B 20X HF reduces the accumulation of grease in sumps, drains and traps allowing other solids to flow through the system and preventing blockages. Bacteria Concentrate 4,000 B 20X HF contains concentrated microorganisms that are capable of degrading a wide range of FOG under aerobic, facultative, and anaerobic conditions and can be diluted up to 20:1 dependent on application.

Features

- Reduces grease build-up and keeps floats clean
- Helps to prevent emergency blockage
- Saves on line jetting
- Lowers grease disposal costs
- Reduces odors

Available In

5 Gal. Fort Pack Item #FML205FP5

55 Gal. Drum Item #FML205D55

Directions for Use

Shake before use. Dilute up to 19:1 and apply as follows:

Drain Lines and Down Pipes

Add 4 oz. of product per 2 inch of pipe size by pouring directly into the drain pipe, starting on the lowest floor and working up at a rate of one floor each day. Do not treat same floor twice but ensure that all drains on the floor are treated. When the top floor is reached, continue from this floor only. Repeat 2 to 4 times weekly depending on drain usage.

Grease Traps

- Week One - 2 gallons per 500 gallon capacity
- Week Two - 1 gallon per 500 gallon capacity
- Maintenance - 0.5 to 1 gallon per week per 1000 gallon capacity.

NOTE: Systems with heavy grease loading should be dosed at 1.5X the above rates until the build-up is under control.

Tech Specs

Bacteria Count	4,000 Billion CFU per gallon
Bacterial Type	Non-pathogenic microbes
DSL	No
Color	White
Fragrance	Citrus
Gram Negatives	Not present
pH	6 - 9.5
Temperature Range	20 - 40 Celsius
Warranty	1 Year
Storage Temperature	10 - 20 Celsius
Storage Humidity	30 - 60
