

pH7 Ultra Solid Floor Cleaner

Solid Neutral Floor Cleaner

Featured on Betco's new GeneSys™ Mid-Size Auto Scrubber, SoliChem™ Technology is the first on-board chemical dispenser system that uses solid chemicals. SoliChem™ delivers up to 80% lower daily cleaning costs than traditional liquid cleaners and one solid makes 350-gallons of cleaning solution.

pH7 Ultra Solid is a proven, high-performance daily, neutral floor cleaner that will keep floors looking brighter and cleaner, everyday.

Features

- Controlled foam - ideal for use in auto scrubbers
- Neutral pH - Won't attack, haze, dull floor gloss or leave a film
- Dissolves and removes a wide variety of soils, leaving floors film free
- Up to 80% lower cost versus traditional liquids
- 350 gallons of solution per solid
- 98% Reduction in Plastic Packaging
- 88% Reduction in Freight Weight

Available In

4 - SoliChem Solids Item #819E3-00

8 - SoliChem Solids & Fortify Pucks Combo Pack Item #92486E4-00

Directions for Use

Calculate your savings using the SoliChem™ [Savings Calculator](#)

- Use only with Betco's GeneSys™ Mid Size Scrubber:
1. Lift the top cap from the SoliChem™ system, then remove the internal cage.
 2. Unwrap a solid and insert it into the center of the cage.
 3. Place the cage back into the unit.
 4. Replace the system's top cap and fill your auto scrubber with water only to begin cleaning.
