

Pulp and Paper

High Performance Cellulosic COD Reduction

Pulp and Paper is a highly effective blend of microorganisms and nutrients designed specifically for difficult-to-treat wastewater streams from pulp and paper mill operations and other complex industrial processes.

It can be paired with Odor Control for maximum odor suppression.

Features

Water-soluble packaging for simple dosing and application
 Specific organisms designed to be effective against contaminants from both chemical and physical pulping processes
 Broad spectrum formula targets BOD/COD and other organics
 Use for daily maintenance or to regain control in upset situations

Available In

25 - 1 lb. Pouches Item #WTP934RP5

Directions for Use

Dosing rates are dependent on temperature, pH, and content of the wastewater. Please contact your EnviroZyme representative for application-specific dosing recommendations and a referral to a distributor.

Tech Specs

Bacteria Count	8 Billion CFU per gram
Bacterial Type	Non-Pathogenic Microbes
DSL	Yes
Color	Brown
Fragrance	None
Gram Negatives	Not Present
pH	6.0 - 9.0
Temperature Range	20 - 40 Celsius
Warranty	2 Year
Storage Temperature	10 – 20 Celsius
Storage Humidity	30 – 50%
