

FiberPRO® Air Mover

Air Mover

Keep floors dry and safe with the FiberPRO® Air Mover. It is perfect for expediting dry times on recently extracted carpets or mopped hard floors. Also, keep entries and lobbies safer with high speed air movement when rain or snow moisture is tracked inside your building.

Features

- 3 speed settings and 3 operating positions
- Powerful, 0.4HP motor with fan speeds up to 1500 RPM
- Rugged Roto-Mold construction
- Stackable design for easy storage
- Two daisy-chain outlets for multi-unit applications

Available In

FiberPRO® Air Mover Item #E89968-00

Directions for Use

Place and direct air mover in the position to best dry the floors or other objects, then power on by selecting desired speed setting.
