

FOG Digester 1B

FOG Reducer and Maintainer DSL

FOG Digester 1B is a general purpose biological product and contains a range of high-performance microorganisms developed for use in the biological wastewater treatment of fats, oils and greases. By reducing grease and organic build-up, FOG Digester 1B helps control the resultant malodors, prevents emergency back-ups, and maintains open, flowing drain lines.

Features

- Helps to establish a biomass capable of handling these difficult wastes
- Reduces grease build-up headaches
- Prevents the blocking, ponding and possible collapse of filter-bed media
- Increases efficiency of overloaded treatment systems
- Enhances BOD and COD removal while improving sludge settlement

Available In

25- 1 lb. Pouches Item #GTP301RP5

50- 1/2 lb. Pouches Item #GTP301RP2

Directions for Use

Dosing rates are dependent on temperature, pH, and content of the wastewater. Please contact your EnviroZyme representative for application-specific dosing recommendations and a referral to a distributor.

Tech Specs

Bacteria Count	1 Billion CFU per gram
Bacterial Type	Non-pathogenic microbes
DSL	Yes
Color	Brown
Fragrance	None
Gram Negatives	Not present
pH	6 - 9.5
Temperature Range	20 - 40 Celsius
Warranty	2 Year
Storage Temperature	10 - 20 Celsius
Storage Humidity	30 - 60%
