

## FastPak™ Mobile Dilution Control Kit

### Precision Dosing

FastPak™ Mobile Dilution Control Kit combines professional, concentrate cleaners and disinfectants, with safe, precise dosing to enhance clean, lower costs and simplify your operations.

This small variety pack of quart size concentrates provides the most accurate solution to dilution control management, including pH7 Ultra floor cleaner, Top Flite High Performance All-Purpose Cleaner, Clear Image Non-Ammoniated Glass Cleaner, Spectaculozo Multi-purpose cleaner, Pine Quat Disinfectant, and a mobile dilution proportioner.

### Features

Simple - Easy-to-use, no training required, no complicated equipment  
Precise - Easily measure 1/4 to 3 oz. with accurate results every time  
Safe - Reduce unnecessary spills or splash risks  
Value - Savings with concentrates and eliminates overdosing

### Available In

**6- Quart Variety Pack Item #92535F6-00**

### Directions for Use

Proportioner cap directions:

**Twist** the lid of the proportioner to set the orange fill line and secure to the bottle.

**Squeeze** the bottle gently to fill the proportioner to the fill line.

**Pour** into a secondary container with water.

### Applications
