

Nutrient ML

Micronutrient and Bacteria

Nutrient ML is a biological product specifically formulated for enhancing municipal wastewater biology in lagoons. Nutrient ML contains a micronutrient blend specially selected for maximum biological activity resulting in a healthy biomass, accelerated waste digestion, and improved settling.

Features

- Reduces sludge build-up
- Controls grease
- Improves settling
- Reduces odors
- Produces an excellent effluent
- Ensures rapid biological start-up

Available In

25- 1 lb. Pouches Item #NSP401RP5

50- 1/2 lb. Pouches Item #NSP401RP2W

50- 1/2 lb. Pouches Item #NSP401RP2

Directions for Use

For anaerobic and facultative lagoon systems, the application rate is based on the lagoon surface area:

- Day 1 through Day 5, 20 lbs. per acre per day
- Day 6+, 1 lbs. per acre per week

Note: Dosing rates are dependent on temperature, pH, substrates, and design of each anaerobic system. The above applications and dosing rates may vary. For problematic systems, please contact your EnviroZyme technical representative.

Tech Specs

Bacteria Count	2 Billion CFU per gram
Bacterial Type	Non-pathogenic microbes
DSL	Yes
Color	Blue
Fragrance	None
Gram Negatives	Not present
pH	N/A
Temperature Range	N/A
Warranty	2 Year
Storage Temperature	10 - 20 Celsius
Storage Humidity	30 - 60%
